

The New Rochelle High School Planetarium Presents:

A midsummer night's
evening at the planetarium
followed by telescope
observing.
(Weather Permitting)

ASTRONAUT A fulldome experience like nothing on Earth

Narrated by **Ewan McGregor**

Friday

8PM

**Doors open 15 minutes before the
show. We will start promptly at 8.**

The Planetarium is
located on the corner of
Flandreau and Argyll
Roads.

The show is free and no
reservations are
necessary.

For questions call
576-4589 or email
bzeller@nred.org

Mr. Zeller, his crew and Irving, the
planetarium projector will point out
this rich sky which includes a
waxing crescent Moon and Saturn
in the constellation Virgo and Mars
and Venus in the constellation Leo.
Immediately following the show,
Neil Newman, (NRHS class of 08)
will have telescopes set up on the
roof to view these 4 celestial
objects.

The show will be approximately 45 minutes long.
